# MACKENSEN IN RETREAT; RUMANIANS WIN BIG VICTORY

## LIGHTNING AND RAIN.

### Bolts Strike in San Francisco.

#### Storm Extends from Marin to North to Santa Clara Valley.

A general rainfall began about 1 o'clock this afternoon, after the storm had been lowering several hours. At 11 o'clock, the local storm was reported in mid-Marin, and the storm extended southward from there. The storm was reported in mid-Marin, and the storm extended southward from there. The storm was reported in mid-Marin, and the storm extended southward from there.

## GOING CRAZY? SEE A DENTIST.

### Toothless but Same as Happy Fate of Woman After Taking Gas.

(DIRECT WIRE—EXCLUSIVE DISPATCH.) NEW YORK BUREAU OF THE TIMES, Sept. 21.—Are you crazy? See a dentist. A trained nurse has grown haggard trying to take care of Mrs. Lloyd Warfield of Spencertown, N. Y., since last February, when she began to show signs of eccentricity. A sojourn in a Troy sanatorium only made her worse. She returned to her home in a more violent condition than she had left it. Her husband was considering sending her to the Poughkeepsie Insane Asylum, as he was hopelessly deranged, when it was noticed that her teeth were bad and needed repairing. Mrs. Warfield went to a dentist and had her teeth fixed. She came back to consciousness toothless, but sane.

With a deafening crash, the lightning, during the progress of the storm, struck a Pacific Gas and Electric Company pole at Polk and Pine streets, sending hundreds of persons scurrying about, momentarily panic-stricken. The transformer on the pole burst into flames and at the same time the extra heavy charge thrown into the system set fire to the ceiling in the kitchen of the home of Mrs. Julius Heyman, Pine street. The fire department responded to a call and easily extinguished both blazes without their doing much damage. Another light pole was splintered by lightning at Forty-seventh avenue and Lincoln way, but did not start any fire. The government forecaster predicts showers over Northern California tonight, with clearing weather tomorrow.

## CARRANZA IN DANGER

### Raids by Villa Alter the Situation.

#### Guarantees for Protection of American Lives Limited by Bandit Activity.

(DIRECT WIRE—EXCLUSIVE DISPATCH.) NEW LONDON (CL) Sept. 21.—Whatever success the New London conference may have, they are likely to prove abortive as a result of Villa's operations in Chihuahua, and developments reported to be pending in the northern States of Oaxaca and Morelos.

Dispatches received here indicate that Carranza once more is in danger of being placed in the position of a hunted man. The anti-Carranzistas in Northern Mexico are becoming active and news may come at any moment that they are advancing against the forces of the de facto government. Villa's raid upon Chihuahua City and his operations against other towns in Northern Mexico probably were in accordance with a concerted movement, designed to convince the American government that Carranza does not represent all the Mexican people and that an agreement made with him does not pledge other chiefs to his observance.

MUST LIMIT GUARANTEES. Because the United States has recognized Carranza as the provisional head of the de facto government, the American government is bound to guarantee the safety of American lives and property throughout the republic. His guarantee necessarily must be limited to the extent that Carranza can give the complete guarantee for the protection of American life and property throughout the republic.

THE AMERICAN COMMISSIONERS held that Carranza was sensible he would consent to Gen. Pershing's cooperation with Gen. Pershing's suit of Villa. According to the advice received from the War Department and originating with Gen. Pershing, Carranza had not less than 500 men and perhaps as many as 1700 in his raid upon Chihuahua City. Gen. Pershing has some 11,000 men under his command. Gen. Trevino seems to be satisfied with retaining Chihuahua and a small zone about the city. Pershing was given a free hand he would take the field and pursue Villa until the latter's troops had been dispersed and the leader killed or captured.

FOR A TRUE POLICY. "There is no basis for that in the recognition of small states," Mr. Hughes added. "There is no basis for that in the recognition of the sovereignty of our neighbor. There is no basis for that in a true and correct American policy. We departed from an American policy and left our citizens to suffer from the barbarity which resulted when all government was destroyed and anarchy was supreme in Mexico. It is a deplorable rectal."

IN A DOZEN SPEECHES today, most of them rear platform addresses of only a few minutes, the administration of Mr. Hughes reiterated that the question was not of recognition of Huerta, or his honorific position, but of the maintenance of a true policy. "That is a matter which presents a false issue," he said. "We have been told in recent days that all states should have the same respect for great states. We were told that great states should be a few days ago that our influence on our hemisphere really depended on our providing, demonstrating to our neighbors, that we had no desire officially to meddle in their affairs or control their internal administration. It was said that we must have a demonstration of our absolute good faith in dealing with the neighboring nations."

FOR A TRUE POLICY. "There is no basis for that in the recognition of small states," Mr. Hughes added. "There is no basis for that in the recognition of the sovereignty of our neighbor. There is no basis for that in a true and correct American policy. We departed from an American policy and left our citizens to suffer from the barbarity which resulted when all government was destroyed and anarchy was supreme in Mexico. It is a deplorable rectal."

## BATTLE OF DOBRUDJA LOST TO THE GERMANS.

### Russian Reinforcements from Bessarabia Save Day for the Entente.

(BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.) LONDON, Sept. 21.—The battle of the Dobruja has been won by the Rumanians. After five days of furious battling Mackensen's troops are in retreat before King Ferdinand's troops, reinforced by the Rumanians, who came down from the north.

The Teuton-Bulgarian army made a desperate effort to break through the Rumanian line guarding the Danube crossings. This was hurled back, and the allied troops, turning to the offensive, thrust the enemy back. In their flight the invaders are burning Rumanian villages. Mackensen's stroke was a heavy one. Just as the Rumanians, aided by the Rumanians, were preparing to invade Bulgaria from the north, he attacked suddenly. Before this swift blow the allied troops fell back toward the Danube and for a time seemed as if their hold on Cernavoda, guarding the bridge into Rumania, would be threatened.

Before the Danube line the allied troops made a stand. Reinforcements—the Rumanians who had come down from Bessarabia—strengthened their line and they massed their forces for a counter-blow. That began six days ago, and a vicious battle followed. Finally the fortune turned to the allies and, pressing their advantage, they put the Teutons to flight.

ANOTHER VICTORY. (BY ATLANTIC CABLE AND A. P.) LONDON, Sept. 20.—The German, Bulgarian and Turkish troops under Field Marshal Von Mackensen have been defeated in the Rumanian province of Dobruja, according to the official announcement from Bucharest. It is declared that the invaders have retired to the south and are burning villages in their retreat.

THE THREATENED general strike will be called, it was announced late today, by Ernest Bohm, secretary of the Central Federated Union. Bohm made the announcement after a conference between labor leaders and a citizens' committee, which both he and Mayor Mitchell declared had failed in its efforts to avert the strike.

THE MAYOR'S communication was addressed to Hugh Frazer, chairman of the Conference Committee of labor leaders, after a final effort to arrange a peaceful settlement had failed and following the declaration that a general strike was inevitable. The Mayor made it plain that for the union officials "to call these strikes will be to assume full responsibility for all that may follow."

THE MAYOR'S communication was addressed to Hugh Frazer, chairman of the Conference Committee of labor leaders, after a final effort to arrange a peaceful settlement had failed and following the declaration that a general strike was inevitable. The Mayor made it plain that for the union officials "to call these strikes will be to assume full responsibility for all that may follow."

Scene of Allies' Latest Great Advance on the Somme.

## ANARCHY IN MEXICO IS LAID TO WILSON.

### Hughes Charges Departure from American Policy in the Case of Huerta is Responsible for Barbarities Which Have Occurred in Republic Below the Border.

(BY A. P. NIGHT WIRE.) RICHMOND (Ind.) Sept. 21.—Instructions said to have been given by President Wilson to John Lind, his personal representative in Mexico during Huerta's time, were cited in speeches by Charles E. Hughes at Fort Wayne, Ind., today, and here tonight, in support of Mr. Hughes's denial that the administration sought to deal with small states in the same spirit as with large ones.

THE AMERICAN COMMISSIONERS held that Carranza was sensible he would consent to Gen. Pershing's cooperation with Gen. Pershing's suit of Villa. According to the advice received from the War Department and originating with Gen. Pershing, Carranza had not less than 500 men and perhaps as many as 1700 in his raid upon Chihuahua City. Gen. Pershing has some 11,000 men under his command. Gen. Trevino seems to be satisfied with retaining Chihuahua and a small zone about the city. Pershing was given a free hand he would take the field and pursue Villa until the latter's troops had been dispersed and the leader killed or captured.

FOR A TRUE POLICY. "There is no basis for that in the recognition of small states," Mr. Hughes added. "There is no basis for that in the recognition of the sovereignty of our neighbor. There is no basis for that in a true and correct American policy. We departed from an American policy and left our citizens to suffer from the barbarity which resulted when all government was destroyed and anarchy was supreme in Mexico. It is a deplorable rectal."

## MAYOR MITCHEL WARNS NEW YORK STRIKERS.

### Leaders Given Formal Warning by Mayor Mitchell to Night that He Would Employ the Full Civil and Military Powers.

NEW YORK, Sept. 21.—Labor leaders were given formal warning by Mayor Mitchell tonight that he would employ the "full civil and military powers" conferred upon him by law to prevent disorders if the threatened general strike of transit workers is called tomorrow to aid the street-car employees who quit their places September 8.

THE THREATENED general strike will be called, it was announced late today, by Ernest Bohm, secretary of the Central Federated Union. Bohm made the announcement after a conference between labor leaders and a citizens' committee, which both he and Mayor Mitchell declared had failed in its efforts to avert the strike.

THE MAYOR'S communication was addressed to Hugh Frazer, chairman of the Conference Committee of labor leaders, after a final effort to arrange a peaceful settlement had failed and following the declaration that a general strike was inevitable. The Mayor made it plain that for the union officials "to call these strikes will be to assume full responsibility for all that may follow."

# ASKS DEATH FOR BILLINGS

Fickers Denounces Alibi for Alleged Dynamiter.

Traces Movements of Prisoner on Day of Explosion.

Seeks to Convince Jury He was on the Scene.

(BY A. P. STAFF WRITER)  
SAN FRANCISCO, Sept. 21.—A verdict for the death sentence was made today by Dist. Atty. Charles Fickers of the jury trying William K. Billings on a charge of murdering Myrtle Irene Van Lee, one of the ten who died as a result of an explosion of a suit-case bomb during a preparedness parade July 27.

Billings' fate will be in the hands of the jury tomorrow night, it is believed. Tomorrow morning Judge William H. Hunt will hear the defense, will argue, and in the afternoon Asst. Dist. Atty. James H. Fickers will have the floor.

The defendant's alleged crime—that of planting the suit-case bomb branded as "the most infamous ever committed in the United States." He compared Billings to a hyena, saying "there is no animal more ferocious than a hyena." He said all of Billings' statements were lies, and that he was not the man who planted the bomb. He said he was not on the scene of the explosion, and that he was not the man who planted the bomb.

The district attorney attempted to convince the jury that Billings was on the scene of the explosion. He said that Billings was seen at the scene of the explosion, and that he was the man who planted the bomb.

# GOVERNOR TO AUTHORIZE NEW ENGINEERING CORPS.

PREPAREDNESS took an important place in the meeting of the Chamber of Commerce directors Wednesday afternoon. The directors voted to thank the patriotic men who had volunteered and to commend them to the new organization.

Capt. James Irvine will head the engineering organization, which will consist of four commissioned officers, fifty-nine privates and six equal number of first-class privates and non-commissioned officers. This branch of the service ranks highest in the army and pays more than any other.

The company will drill as infantry, but will study camp location, sanitation, trench-making, road and bridge building and similar field work. The petition will be forwarded at an early date and those who wish to join may do so at any time.

The engineers will be mustered in as reserves under the National Defense Act recently passed.

# HERE TO RECOVER FROM FRIGHTFUL EXPERIENCE.

WALTER O. HAMILTON, president of the Imperial Irrigation District, who, on August 21, fell through the earth crust into a boiling mud pot near Volcano Lake in the Imperial Valley, was yesterday brought to Los Angeles, where his convalescence will be completed at a local hospital.

Mr. Hamilton was showing some friends the geyers and mud pots in the vicinity of the Volcano Lake district, thirty miles from the Imperial Valley, when he slipped into one of the huge vats. He spread out his arms and held himself from sinking further, but he was unable to do so and he was scalded to death before his companions could have reached him.

A record run was made by the work train, which carried Mr. Hamilton, under the direction of C. R. Crook, who is in charge of the excavating of a new canal near Cerro Prieta, to Calexico.

Hamilton was reported to be in the next few days. Mr. Hamilton is a thirty-year-old journeyman from El Centro to Los Angeles by Mr. Lockwood.

# PROSPECTS FOR GREECE VIEWED BY VENIZELOS.

(BY ATLANTIC CABLE AND A. P.)

ATHENS, Sept. 20 (via London, Sept. 21).—Eleutherios Venizelos, the former Premier and Cretan statesman, was asked today as to the truth underlying the repeated reports that he was going to Saloniki to put himself at the head of a temporary revolutionary government, and in reply, he declared to the Associated Press:

"I cannot answer now. I must wait a brief time yet and see what the government proposes to do before deciding the course it will be best to adopt in the event that Greece does not enter the war."

As I said on August 21, if the King will not hear the voice of the people we must ourselves devise what is best to do. We do not know what that will be, but we are continuing of the present struggle would be intolerable. We have had ten months of mobilization, with all the consequent hardships to the families of the men mobilized, while both Balkan wars only included thirteen months, with great facilities available for the relief of the families of the soldiers. Our boundaries have been invaded; the Greek army has been destroyed, and all horrors enacted. We have had all the financial burdens of war and the cost of maintaining a useless mobilization. The morals of the army has been destroyed by inaction. Then we had a victorious war, now we have a beaten army.

"We even have more than an entire army corps of Greek citizens, and already we have paid the Bulgarians an immense war indemnity, amounting to the sum of 100,000,000 francs. The Black Range belt is five miles from the heart of Oatman and twenty miles from the heart of the Black Range. The Bulgarians are actively at work on development. The Wrigley, Gold Range, Crescent, Oatman, Gold Mountain, Burdock, Southern, and Adams are located in the Black Range section.

Officials of the Tom Reed arrived here from Pasadena to make an inspection of the Astor strike. They stated the development was the biggest thing since the Big Jim and predicted a big tonnage of ore for the Tom Reed company.

# WOMEN GOING TO WORK.

Women are taking up the work of the world. An industrial census just taken in Illinois, indicates that there are more girls at work than boys. In every classification, except that of office boys, girls are in the lead. A report from the U. S. Bureau of Labor, dated Sept. 16, 1916, shows that 70,419 boys and girls under 21 years of age, recorded in the report, these were the Greek Macedonian boys, boys, boys.

All the way up from simple vegetable forms to the law of nature, it is that the most advanced type shall be hardest to preserve, multiply and develop. It is a vast handicap upon progress which often seems to mock the endeavors of mankind. It is as if effort more than achievement were the foremost purpose, the chief goal of man.

# THE FINAL RITES.

Funeral of Widow of Man Who Helped Build Newhall Tunnel and Furnished Land Now in Residence District will Occur Tomorrow.

Funeral services for Mrs. Emma Holm, who passed away at her residence, No. 477 West Twenty-third street, Wednesday morning, will be conducted at the home at 10 o'clock this morning. Interment will be in the family plot at Ingwood Cemetery.

Mrs. Holm was the widow of Fred Holm, who at one time farmed twenty acres of land in what is now one of the exclusive residence districts of the city. Mr. Holm was also connected with the boring of the Newhall Tunnel. The land is situated at what is now Western avenue and Washington boulevard, and adjoins Berkeley Square. The twenty acres were purchased by Mr. Holm in 1871 for the sum of \$1500. The present value of the land is over \$25,000 per acre.

Mrs. Holm had been a sufferer from paralysis for several months. She leaves two daughters, Lillian and Louisa Holm, and one son, Adolph, all of whom reside at the West Twenty-third street.

Mrs. Holm was 64 years of age.

# TO THE MARK, IDOLERS CANNOT STAY ON OCCIDENTAL ROLL.

WILL APPLY WAR MEASURES AT LOCAL COLLEGE.

President Tells Students Time for Tolerance of Indolent Past and Those Who will not Work to be Ejected—Largest Enrollment in History of Institution.

The opening exercises for Occidental College's new school year occurred Wednesday. The chapel exercises at 11 o'clock were largely attended by students and friends of the institution.

Opening announcements of the college year were made, vacancies in the faculty and the appointment of new members were announced and the latter were introduced and received with enthusiastic applause.

President John Willis Bear expressed gratification over the outlook for a successful school year, stating that there are more students than ever before, particularly in the sophomore, junior and senior classes. Having a large number of transfers and a large number of accessions to these classes from other institutions.

In his address to the students, Dr. Bear said, in part:

"Let us assume that you came to this college to get the best education. Alongside of that assumption let me state a fact—you can get a better education here if you will. It is possible for you to select certain courses, and do certain work, and at the end of a certain period have a diploma which will enable you to enter a college of higher education. Education is really no disgrace, we do most earnestly denounce preventable ignorance, especially when it is due to a vicious life, idleness, slothful thinking, idling or dawdling."

There is not a new argument which should permit Occidental to tolerate the 'college idler.' We have tried to make ourselves believe we could regenerate him, and all the while have permitted the 'virus of his intellectual listlessness to contaminate good associates. The time for tolerance is past. War measures are popular the world around, and are to be applied in Occidental relentlessly. One famous educator says the idler is the leper of college life and he must be ejected."

# DAHLIA SHOW

At the Display Rooms of

## Howard & Smith

Ninth and Olive Streets, Los Angeles

PHONE 1897 11 MAIN 1745

### Friday and Saturday September 22 and 23, 1916

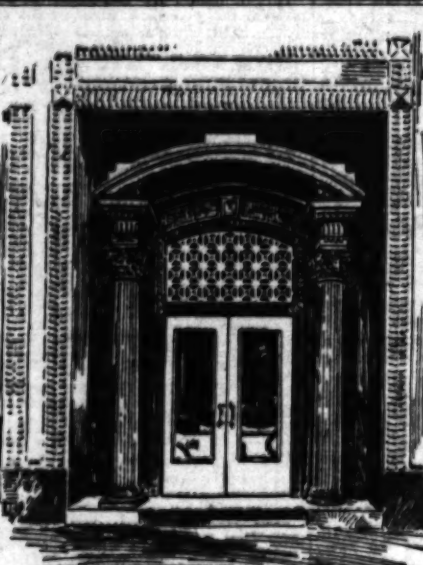

You are cordially invited to attend this, the largest display of Dahlias ever shown in this city. Over one hundred varieties, each one carefully labeled.

# How Practical Los Angeles Business Men Are Gradually Building Up "Living Trusts"

Broad-minded merchants, manufacturers and professional men—those with a keen eye to the future welfare of themselves and those dependent upon them—are creating living trusts with Title Insurance and Trust Company, that will ultimately be a barrier against misfortune, want, or any unforeseen adversity.

A living trust may be started in a modest way, with cash, property, stocks, bonds or other securities.

Many business men add a certain portion of their monthly profits to their trust funds. Why not learn about this modern method of protecting and preserving wealth and property? The cost is insignificant when compared with the services rendered and the protection received. A personal talk with one of our Trust Officers today may result in saving you and yours from hidden perils.

## The New Dinner and Dancing Dresses

The hoop, or reed is here—not as a possibility or a hope, but actually, in dozens of different styles, as graceful and winning as in our grandmothers' day though totally different in treatment.

It is not a necessary feature of the season's fashions, but an added grace—just as paillets are a feature—sparkling and iridescent in bodice or band or girdle; just as silver cloth is; or bullion lace, or tulle, or Pompadour silk are—a definite feature but not the whole.

And as in coats or suits, so in everything else—they are exclusive in style but multitudinous in variety.

## SAYS CASE WAS ON THE SQUARE

### McAfee Suspended as Head of Metropolitan Squad

But is Given Promise of a  
Letter Clearing Him.

**Lawyer Declares His Part of  
it Above-board**

Suspended as head of the metropolitan squad, Detective Guy McAfee yesterday commenced a vigorous fight to clear himself of the stigma placed upon him in the tangled skein surrounding the recent case of David Willard, the college

young who were first arrested in a charge of robbery and then tried for assault on Miss Rose Arnold of No. 254 South Figueroa street. Late yesterday afternoon Detective McAfee declared that following a consultation with District Attorney Henry Stafford, he had obtained the promise of that official to write a letter to Chief of Police Sively explaining the facts in the Times yesterday morning. Chief Sively replied that District Attorney Stafford of the metropolitan squad, where he was acting chief during the absence of Sergeant Cleveland Heath. Because of the Police chief's absence, he demanded the attention of McAfee. He was instructed to continue as a police officer.

At a meeting held between Chief Sively and the officer it was decided that if the District Attorney's office should not object, he intended nothing to do with the stop order issued after a complaint had been sworn to against Mr. Kidder and also explain to the public the reasons for the charges from robbery to assault was the result of imprudence on the part of friends of the young man, the in-

to SPARE YOUTH.

McAfee was on the point of prosecuting the young man for robbery when friends had a stop order issued. The complaint had been issued, but the stop order reached the detective before he had time to have a warrant made out. A conference was called between the District Attorney's representative, Detective McAfee, Miss Arnold and friends of Mr. Klöder, and it was decided to give the young man another chance. The charge changed to assault and permit him to pay a \$25 fine.

## DAME FASHION HERALDS WINTER OF SPLENDORS.

Great Crowds of Victorians Flock to Shrines of Sartorial Wonders that Make the Downtown Windows Surprisingly Brilliant—"Era of White" War Prophecy is Upset by Riot of Colors.

HERALDING an age of splendor more regal than the days of Louis XIV, Dame Fashion reached the City of the Angels yesterday. From early morning until past midnight, a gay throng paid her homage, their hearts and minds occupied with but a single thought—sartorial wonders.

Never before has the god of war so influenced the fashion. Not only is the present great war that is playing so important a part in the making of styles, but designers have gone back into history for effects and color combinations—barbarous in their boldness and wicked in their cost.

Not alone is Dame Fashion dictating what garments, jewelry, handbags shall be, but she is dictating that the world's perfumes, toilet waters, hags, furniture, flowers, writing materials and every thought shall be in keeping with her aristocratic fancy.

Amidst all the gold and glitter and dashing tones that the Queen of Fashion dispensed her royal knowledge yesterday, the results of her "research" were displayed under marvelous lighting effects last night, and she will be just as generous throughout today.

**GREAT CROWD CHARMED.** Her arrival was acclaimed by tremendous crowds. All day and into the evening thousands of richly-gowned women, with their fashionable husbands, drove in their monogrammed limousines to pay homage at her various headquarters.

Several things Dame Fashion impressed upon her subjects imperatively. One is that if you are to be her good and faithful subject you must exchange your golden dollars for garments of gold cloth, gold lace or embroidery done in threads of gold, unless perchance you prefer silver.

You must use in your garments the rich materials she has manufactured for you. These are the new velours, litten's ear material, wonderful velvets and brocades, crepes, broadcloths, embroidered failles and chiffons and hundreds of others, each costing more than the other, but each deserving of wicked extravagance.

One must choose from the new blues, cornflowers and mapples, the exquisite wisteria shades, the bur-

### CABARET CLOSING DAY FOR DISPLAY MEN.

WORKERS CELEBRATE FASHION SHOW SUCCESS.

Various buyers speak to their Association. Members of Rapid Progress Made in Beautiful Window Shows and Imparting Value to Wide-swale Merchants.

As a fitting close to a day ruled by Dame Fashion, the California Display Men's Association joined in a cabaret entertainment at Christopher's banquet hall last night.

The music and the supper were in keeping with the style, while the programme was instructive and entertaining.

C. E. Adams, buyer of M. A. Hamburger, spoke on "Window Displays from a Buyer's Point of View—Four Months Spent in the European War Zone."

H. H. Hilpen, assistant superintendent of Bullock's, chose for his subject, "Window Displays and Their Value to the Progressive Merchant."

W. M. Higgins, general manager of the New York Store, Paris Store and the Palais de Modes, addressed the gathering on "Business Methods of Today—Rapid Advances in Display Work."

The subject R. E. Adams, secretary of the Retail Dry Goods Merchants' Association, spoke on was "The Value of Co-operation in Making the Fashion Show a Success." He was followed by J. A. Butterworth, advertising manager of Harris & Frank, who spoke on "Results to be Obtained Through Co-operation of Advertising Managers and Display Managers."

The officers of the association are Paul Lupo, president; E. E. Settle, secretary; H. R. Buchanan, first vice-president; L. C. Cundlich, second vice-president; M. Walters, treasurer; P. G. Allen, third vice-president; A. H. Redmond, chairman of the Entertainment Committee; C. A. Kupper, chairman of the Membership Committee; J. A. Jones, Jr., chairman of the board of trustees; M. E. Cohn, chairman of the Educational Demonstration Committee, and F. C. Elliot, official photographer of window displays.

**DENIES MISCONDUCT.** Man Named by Richard in Double, Divorce Action Says He was Just Friend of Friend.

Who—Dined with Her, He Says.

The divorce case came before Judge Daly yesterday, and as it is a double-barreled affair, Mrs. Frances J. Stever charging desertion and adultery, and the husband denying both, the case was continued for another day.

Thomas Golding, who is named in the cross-complaint, declared he and Mrs. Stever had been good friends and nothing had happened between them and played cards with her, and emphatically denied any misconduct. Mrs. Stever is similarly emphatic and will take the stand today. The main fight is for the custody of the two children.

**Stomach and Liver Troubles.** Much of the misery and suffering caused by disorders of the stomach and liver may be avoided by taking Chamberlain's Tablets. Obtainable everywhere.—[Advertisement.]

## ESKIMOS TOO CIVILIZED NOW.

Arctic Explorer Back, with Lower Faith in Man.

Formerly Praised Aborigines for Honesty; Recants.

Reports Discovery of Large Deposit of Copper.

WITH many interesting details of his polar expedition to tell, Dr. Rudolph M. Anderson, noted explorer and zoologist, who returned from the north a few days ago, arrived here yesterday morning for a visit with Capt. Ernest DeKoven Lettison, who headed a similar expedition party about nine years ago.

Dr. Anderson was sent out by the Victoria Museum of Ottawa, Can., in 1911, in charge of the southern party of the Canadian Arctic expedition, while the noted explorer, Stefansson, who is still in the north, headed the northern party. Dr. Anderson's party passed most of its time exploring districts near the Arctic circle, particularly the Coronation Gulf country.

One of the discoveries that appears to have interested Dr. Anderson most is an apparent decline in the moral standards of the Eskimos. When he returned from a similar expedition tour, carried on under the auspices of the American Museum of Natural History of New York City, in 1911, he carried glowing tales of the honesty of the natives.

"All this has changed," he said, as he regretfully shook his head last night, "and I find the natives less honest than I thought. Begging and petty thievery are becoming more common and other bad habits of the 'civilized' world are noticeably on the increase."

**THIEF TEST CASE.** Suit to recover property valued at \$150, stolen from the Buckingham apartment August 4, last, when their rooms were broken into by burglars, was filed by Leonard E. and Eva C. Hershman against A. R. Park, the landlord, in the justice's court yesterday. The action was brought under an act defining the responsibility of a landlord in case of theft and will serve probably as a test case.

**THIEF TEST CASE.** Suit to recover property valued at \$150, stolen from the Buckingham apartment August 4, last, when their rooms were broken into by burglars, was filed by Leonard E. and Eva C. ## BAN LIFTED BY NUPTIAL VOWS.

Woman Weds Owner of House Court Closed to Her.

Spent with Groom's Two Sons Prelude to Wedding.

Usurpation of Dead Mother's Place Alleged Cause.

An order issued by Police Judge King of Santa Monica that Mrs. Margaret Morrow should stay away from the apartments owned by Henry F. Knott at No. 114 Raymond avenue, in the beach city, has lost all effect, as Mrs. Morrow is now the bride of Mr. Knott. A marriage license was obtained in this city yesterday and Justice Summerfield performed the ceremony.

The order of the court followed the arrest of Mrs. Morrow after the police had to be called to quell trouble between her and Mr. Knott's two sons, Howard and Clarence, who objected to Mrs. Morrow occupying their dead mother's chair. The first Mrs. Knott died eighteen months ago and the sons declared Mrs. Morrow, now Mrs. Knott, who was a clerk in the apartment-house, attempted to take the mother's place. Mrs. Knott died without leaving a will and the two sons and the father inherited shares in the property.

When the younger son, Howard, called for the police, he was startled on approaching the house to hear a pistol shot. He said a bullet whizzed past his head. Mrs. Morrow was tried August 22 on a charge of disturbing the peace and was ordered to move from the apartment-house. In spite of the fact that the police judge says the ban is lifted, Mrs. Knott, who is 35 years old, did not return to the apartment-house with her husband. Instead she is staying with friends in Los Angeles because of illness.

**THIEF TEST CASE.** Suit to recover property valued at \$150, stolen from the Buckingham apartment August 4, last, when their rooms were broken into by burglars, was filed by Leonard E. and Eva C. DAY MORNING.

SHADES DIVIDE THEM.

Husband and Wife, Whose Memory of Former Mate Seems to Have Marred Happiness, Make a Property Settlement. Divorce Sought.

The marriage of Phoebe and J. H. C. Von der Loh seems to have been marred by the memories of their former spouse. Some time ago Mrs. Von der Loh tried to recover damages from her husband because, she alleged, he had moved the body of her first husband from the grave where she had placed it to another. The decision was against her in Judge Taff's court.

Mr. Von der Loh brought suit for divorce, charging cruelty. This cruelty seems to have been, as alleged, the fact that she spoke disparagingly of the former Mrs. Von der Loh. She also called the husband rude names on several occasions. It is charged. A property settlement is said to be in progress, and in view of that fact Judge Taff yesterday continued the divorce until Monday, when the trial date will be set by Judge Wood.

More than Thousand Foreign Families in this City are Said to Need the Instruction—Installation of Dental Office in Dispensary is Ordered.

A communication from the Croatian Benevolent Society, requesting that it be allowed to teach the Croatian language in the Castelar school on the second and fourth floors of the building, was read to the Board of Education yesterday afternoon.

According to the members of the society, they will provide the instruction, which they say will serve over 100 families in the vicinity of the Castelar-school street alone.

"There are over 1000 families of Croats in the city," states the letter, and it adds that forty children will form the first class, providing permission to use the school be granted. The matter was referred to the Teachers and Schools Committee for an early report.

The board adopted a report of Supt. Shells recommending that a reciprocal arrangement be made between the city of Los Angeles and Los Angeles, by which high school pupils of this district may attend the Santa Monica High School, the same privilege to be granted the students of the latter school who wish to attend the Los Angeles High School and Junior college. About twenty students will be affected.

A further recommendation by Supt. Shells for a dental office in the public school dispensary, which will cost approximately \$125, was adopted, and the work of installing equipment will start at once.

October 3, which has been recognized as "Fire Prevention Day," will be observed in the city school if the request from the Chief of Fire is approved by the Teachers and Schools Committee. Chief Eberly requests that the Board of Education either prepare handbills concerning the prevention of fire and distribute them among pupils, or that speakers be allowed to present the subject at the schools.

The board received what amounted to a second written demand from the local Painters' Union that the union wage scale be paid workmen engaged by the school department. The board promptly considered the communication to the files, without action.

Noted.

FIND TWO GUILTY.

Government Scores on One of Three Charges Resulting from Capture of Thomas J. Wilson and John G. Winkler with Smoking Opium.

A jury in United States District Judge Cushman's court last evening found John C. Winkler and Thomas J. Wilson guilty of having transported smoking opium. This was the second count of an indictment charging three offenses—conspiracy, transporting and having the stuff in their possession. The accused will be sentenced one week from today.

Winkler has a home in San Bernardino and has been in the taxicab business in San Francisco for some time, with the Powell-street run. Special Agent Johnson of the United States Treasury Department is authority for the statement that Wilson has been under the influence of the drug since officials for the past four years.

EASY TO STEADY?

Man who Wrote that it is Fool to Lacerate Charge.

George A. Kelly, whose newspaper story by "an ex-convict" told how easy it is to steal, was before Justice Brown yesterday for a preliminary examination on a charge of attempting to sell a stolen automobile to R. Rosenberg and William G. Brown, men. The machine belonged to R. G. Glenn and was stolen the 4th inst.

Mr. Rosenberg testified that Kelly approached him, saying he had an automobile to sell. Arrangements were made to have Kelly bring the car the following day. Instead of taking it to the garage he left it a block away. Meantime, Mr. Rosenberg notified Officer Powell of the Automobile Club and a trap was laid for Kelly.

As he negotiated the sale to Mr. Rosenberg, Kelly was arrested. At the time he was employed by a moving picture company. According to Officer Powell, Kelly was convicted and sent to the penitentiary, and after serving two years was paroled. The case yesterday was continued.

McCall, Edith Russell, Phil Slingluff, W. M. Steer, Walter Woods and Mrs. L. A. Whittington. At the Postal for Lawrence C. May, Charles Berry, George E. Hanson, Irving W. Whitcomb, and Col. McIntyre.

SEALER OFFERS BREAD WEIGHT.

Insists Five-cent Loaf Shall be Twelve Ounces.

Setting a Standard Protects Purchasing Public.

Legitimate Bakers will not Suffer, He Says.

The standard 5-cent loaf of bread in Los Angeles shall weigh twelve ounces. This is the proposal of Charles M. Fuller, County Sealer of Weights and Measures, who yesterday filed with City Clerk White the following communication addressed to the City Council:

"During the past year, and especially during the past month, instant demand have been made upon this office to take some action toward regulating the weight of loaves of bread.

"Massachusetts, Washington, Chicago, San Francisco and other places have adopted laws and ordinances establishing the standard loaf. These laws have proved successful, not only in protecting the interests of the purchasing public, but also in protecting the legitimate baker from the unfair competition of those who would undersell by cutting down the weight.

REDUCTION WRONG.

"Competition in the sale of bread should not be based on the reduction of the weight of the loaf. If the future development conditions justifying an advance in the price of bread the public will not then be imposed upon for a cheapness loaf appears approximately the same in size as a twelve-ounce loaf.

"Recent investigation made by this department reveals the fact that some loaves of bread selling for 5 cents weigh as little as nine and one-half ounces, as against others that weigh twelve and thirteen ounces. By the process of baking and manufacture a loaf of nine ounces can be made to look as large as one of twelve. It is in this condition that we aim to affect. In some cases the lighter-weight loaves are sold to the retailer at a lower price, but the consuming public pays the same for them.

TO HELP FAMILIES.

"This question is one of vital importance to our people, many of whom find it a serious problem to make both ends meet, and to whom the reduction in the price of the loaf means just as much loss nourishment for their families.

"A thorough investigation, made throughout the State by the department of weights and measures, has shown the average weight maintained by the bakeries to be between twelve and thirteen ounces. In order to maintain this weight, a number of cities, including San Francisco, have passed ordinances fixing this as a standard weight.

"I am enclosing an ordinance based on the above standard and drawn after the form of the Chicago bread ordinance, which is considered a model of its kind. We believe that this will safeguard the public and will also protect the baker who desires to give a full-weight loaf of bread. I would respectfully request that some convenient time might be set for a hearing, at which time all parties could be given an opportunity to be heard."

The bread ordinance proposed by Sealer Fuller follows:

(1.) Every loaf of bread made or procured for the purpose of sale, sold, offered or exposed for sale in the city of Los Angeles shall weigh twelve ounces avoirdupois (except as hereinafter provided), and such loaf shall be considered to be of that weight unless proven to the contrary.

Bread may also be made or procured for the purpose of sale, sold, offered or exposed for sale in eighteen-ounce, double, triple, quadruple, quintuple or sextuple loaves, and in no other way.

(2.) If any person, firm or corporation shall make or procure for the purpose of sale, sell, offer or expose for sale within the city of Los Angeles any bread or loaf of which are not standard eighteen-ounce, double, triple, quadruple, quintuple or sextuple loaves, as defined in section 1, or shall make or procure for the purpose of sale, sell, offer or expose for sale within the city of Los Angeles any standard loaf or loaves of bread which do not weigh twelve ounces each, such person, firm or corporation shall be guilty of a misdemeanor.

(3.) Exceptions. The provisions of this ordinance shall not apply to crackers, pretzels, biscuits, buns, scones, rolls or loaves of fancy bread weighing less than one-fourth of a pound avoirdupois, or to what is commonly known as 'stale bread,' sold as such, provided the seller shall at the time of sale expressly state to the buyer that the bread so sold is stale bread."

IS BANKRUPT.

A. B. Allison, a clerk, filed a petition in bankruptcy in the United States District Court yesterday, listing his debts, all unsecured, as \$10,654.25, and his assets as \$401.25, consisting of household belongings, all except the law, and "stocks, bonds and negotiable instruments" scheduled as worth \$1.25.

WHAT THE ARMY IS THINKING ABOUT.

BY HARRY GARE.

OUR ARMY has always prided itself upon being practical. But some of the officers are beginning to think there is such a thing as being too practical. Especially as to uniforms. They wait at the necessity of wearing slouchy clothes.

In the days when it was doing its hard fighting the army wore the famous blue. Which was just about the worst color it would have been possible for fighting troops to wear. Experiments by German officers have shown that dark blue is the color of highest visibility. The French troops wear into this war wearing bright red trousers and blue coats. It was found that the blue blouse could be seen long after the red trousers had disappeared.

A few years ago the United States Army adopted olive drab as the color best adapted to field service on account of its low visibility. From a service field uniform it became the garrison uniform. Now the army has become practically an overall army in olive-drab flannel shirts and sweaters instead of coats.

It is a question in the minds of many officers if carrying practicality to such lengths is really practical after all. In Germany, for instance, the soldiers go to the front in a dirty gray, but in time of peace they have gorgeous garrison uniforms. The same is true with the British regiments.

"Overall," writes a cavalry captain to one of the military journals, "are becoming to a laboring man at work, but not at the theater or on the street. Out-of-date, shabby clothes are all right on a fishing trip, but who with any pride cares to wear them all the time? A well-dressed man takes more pride in himself and holds his head higher than he otherwise would. Clothes do make a difference."

"That our army has degenerated into a slouch and its men have lost their energy, short appearance that was so justified a feature of the 'old army,' that it is losing esprit de corps and pride in its uniform, I believe is common knowledge."

Many of the regular officers are asking that a distinctive type of uniform be adopted for the regulars. As it is now, there is nothing to distinguish the regular from the volunteer. At El Paso this summer the young staff officers used to go for dinner to the Hotel Paso del Norte, where the elite of the community held forth. Even in their olive drab they gave the dining-room a dashing appearance.

After the President called out the militia National Guardsmen began pouring into El Paso, and the militia officers also made a dash for the big hotel to be admired. This was too much for the West Pointers. The night following the arrival of the militia they appeared as usual at dinner, but every mother's son of them wore citizens' clothes. If the militia officers were entitled to wear the army uniform, then the West Pointers wouldn't wear any uniforms at all.

The army saddle is to be changed again. A while ago a board of officers got together and decided to amend the old McClellan saddle which had done duty since the Civil War. They said it was too hard on the men and on the horses.

The McClellan is a saddle with a high, round pommel and an extra high cantle. It is the claim of some experts that it grinds into the backs of the horses.

The saddle adopted tentatively was an adaptation of the French army saddle. It is a fact not generally known that the French, of all armies in the world, have made the most careful study of equitation. And they seemed to have the saddles of saddles—a flat pad, something between a Whitman and an English park saddle.

For a year or so several of our cavalry regiments have been using the new saddle experimentally.

During the fact that it is equipped with a movable bar that was a flat failure, the officers generally favor the French saddle. But the cavalry men are unanimously against it. Their great objection is that they can't carry enough stuff on it. You could hang enough stuff onto one of the old McClellans to sink a ship. The soldiers can't carry much on the French saddles.

The result is the War Department is getting out two new experimental saddles. The one for officers is just about like the French army saddle. The saddle intended for enlisted men is a cross between the McClellan and the French saddle now in use.

A sarcastic army officer writing to a military weekly gives the following as an illustration of the working of the system devised by Congress for the examination of officers for promotion. His point is that the fitness of officers for promotion should be known at all times instead of having a wild scramble, during periods of expansion, to test this fitness.

He says the inventor of this promotion examination system would proceed as follows to find three black beans in a quart of white beans: Given: A quart measure of white beans in which three black beans are suspected to be hidden. Required: To eliminate the black beans. Solution, according to wisdom of Congress: Spread contents of measure on table so that all beans are visible. Take one bean at a time, taste, smell, determine the specific gravity, and then chemical composition, examine on all sides with microscope, and if found white put back in measure; if black, rejected.

Solution by man who knows beans when the bag is open: Spread beans on table, pick out black beans and restore others to the measure. Suggestion: Don't let family starve while you look for three black beans.

The American mule has caused the British army more trouble than fighting the Germans. A late number of London Punch contains the following verses, being a paraphrase of Kipling's "The Blooming Oust":

I never would 'ave done it if I'd known what it would be. I thought it meant promotion an' some extra pay for me! I thought I'd miss a drill or two with packs an' trenchin' tools. So I said I'd 'andle 'oress-an' they set me 'andlin' mules.

Now 'oress they are 'oress, but a mule 'e is a mule (Bilt o' devil, bit o' monkey, bit o' bloomin' boundin' fool). Oh, I've used all the adjectives I didn't learn at school. On the prancin', glancin', ragtime dancin' army transport mule. They buck you off when ridden, they quish your leg when led; They're mostly sittin' on their tail or standin' on their 'ead; They reach their yellow grinders out an' gently chew your ear, An' their necks is Indian-bow-for-stickin' in the rear.

They're 'orrid in the stable, they're worse upon the road; They're in bed with an ear-ache, they'll go with any load; But soon we're bound beyond the seas, an' when we cross the foam I don't care where we go to if we leave the mules at 'ome.

The Coulter Dry Goods Company requests the honor of your presence during The Fall Fashion Show Thursday and Friday of this week at which time there will be displayed for inspection and sale throughout the establishment the foremost trends of Autumn and Winter Modes in Millinery, Ready-to-Wear Apparel and all forms of High Class Dry Goods

I CURE PILES FISTULA and all Rectal Diseases WITHOUT AN OPERATION For twenty-five years I have been curing diseases of the rectum and lower bowel. During that time my experience as hospital and railroad surgeon, as college lecturer and professor, has enabled me to develop a method that is superior to others. I cure without surgery and my patients are not confined in bed and seldom lose a moment's time from their business. My method is not a "home cure" or a "correspondence treatment," but it is an application of skilled treatments administered under the most rigid aseptic conditions in my office. I solicit old sores and obstructions of the rectum, hemorrhoids and ulceration that have hitherto resisted all treatments employed. If you are a sufferer from rectal trouble I invite you to investigate my method of treatment, but not before. It has the application, the knowledge and the skill born of many years of specialization in the treatment of rectal diseases. Read what a few well-known Southern California people have to say of my method. Many similar letters are on file in my office.

WELL KNOWN SANTA MONICA MINISTER CURED. This is to certify that Dr. C. H. White has cured me of a distressing hemorrhoidal ailment of 15 years duration. The method of treatment is effective, but not severe. He has the application, the knowledge and the skill born of many years of specialization in the treatment of rectal diseases. Read what a few well-known Southern California people have to say of my method. Many similar letters are on file in my office.

WELLEY E. BEANS, Pastor First Methodist Episcopal Church, Santa Monica, Cal. ANTI-SALOON LEAGUE SUPERINTENDENT CURED. My Dear Dr. White: I am thankful for the privileges of bearing witness to your ability to treat diseases of the rectum, the delicate and distressing diseases which result from sedentary work. To all who need the services of a skillful, sympathetic and experienced specialist in your line, I heartily commend you.

HERVEN S. CHAPMAN, D. B. L. L. D., Superintendent State Anti-Saloon League Send for my FREE booklet

## FAVOR PLAN TO WELD OFFICES.

Representative People Talk on Consolidation.

No Logical Argument Against it, is Ground Taken.

Dual System of Handling the Taxes Criticized.

The proposition to combine the city and county Tax Collectors' and Assessors' offices by creating one central department, as proposed by the amendment to the city charter which will be voted upon October 24 at a special election held for that purpose, is finding increasing and vigorous support among all classes of business and professional men.

The consensus of opinion expressed is that the present dual system is an unjustified expense, and in addition to being a source of great expense to the taxpayer, is open to objection on numerous other scores.

Following are some statements on the matter:

W. H. Harrison, manager of the Los Angeles Investment Company, said:

"The directors of this company have unanimously given us a record in favor of the consolidation of the offices referred to."

W. A. Bouslog, president of the Commercial National Bank:

"The advantages of this consolidation move must be apparent to everyone and the people certainly will adopt it. The only ones that I can imagine who would oppose the step are politicians who feel that there will not be enough offices to go around and care nothing for the taxpayers at large."

Harold L. Arnold, automobile dealer:

"I am certainly heartily in favor of combining the city and county offices as far as possible, for there is a big waste of money and a lot of useless extravagance in running a duplicate system. The rate at which bonds have been voted and money spent recklessly in Los Angeles for the last few years is enough to make anyone having the interest of Los Angeles at heart most thoroughly discouraged. Apparently it has been a case of trying to see how much money could be voted and spent without a thought as to the time when the money must be repaid. Los Angeles is big enough, progressive enough and metropolitan enough to have the very best city government. Instead of the second-rate limitation that we have been favored with for the past ten years."

E. H. Spencer, investment broker:

"I am strong for this consolidation movement."

Theodore Martin, attorney:

"The consolidation of these offices is certainly the logical thing to do and I can conceive of no logical argument against the proposition. To permit the present conditions to remain shows a wonderful lack of business judgment."

John W. Kemp, public service commissioner:

"I think the consolidation plan will carry almost unanimously."

Albert Cohn, grocer:

"It is the only way to reduce taxes."

William C. Fletcher, American Bank Building:

"Unquestionably, the movement is the right one."

L. C. Crossman, No. 273 South Vermont avenue:

"The consolidation movement is most laudable and should carry unanimously."

Whose Fault?

SPEED HER DEFENSE.

Society Woman Fights Damage Suit of Motorcyclist Who Say She Caused Accident—Judge Makes a Trip to View Scene of Mishap.

Miss A. M. Newton of West Adams street was driving along Citrus avenue, Covina, November 13, 1915, when at an intersection a motorcycle ridden by E. E. Austin and his son passed on the right, skidded in soft ground, struck a low wall and catapulted the men into an orchard. The net result was a broken leg for Mr. Austin and a suit against Miss Newton for \$10,000 damages and \$250 for surgical attention.

The suit came before Judge Hewitt and after hearing a portion of the evidence, he drove to Covina yesterday to view the scene of the accident.

Two views of the affair were presented to the court. One was that Miss Newton, who is prominent in society, the daughter of Mrs. Jane Ann Newton, usurped the right of way when Mr. Austin was entitled to it. She declares the motorcycle was driven at high speed and that the riders were actually seen in the orchard after the accident. They say they slid off the machine, which was moving only fifteen miles an hour. Many witnesses were called, including a number of boys.

The question turns on who has the right of way and how fast the motorcycle was going. Miss Newton disposed of her motor car after the accident, according to her attorney, former Judge Wm. Kendrick and Ardis represent the Austins.

## UNDER PEACE BOND.

Slender Meaning Dismisses When Miss Mitchell Denies Threat to Kill Mrs. Anderson and Son.

Justice Advises Dismissal of Charges.

The slender meaning attached to the words, "There are other things of value than gold. I am going to get it. Look out," written by Miss Mary J. Mitchell, a music teacher living on South Flower street, dissolved in Justice Furber's court Wednesday when Miss Mitchell denied an accusation that she had threatened the life of Mrs. E. L. Anderson and young son. Miss Mitchell declared emphatically she at no time made threats against Mrs. Anderson and her son.

She denied she had stated to Mrs. J. W. Tremble that she intended to take the law into her own hands, and, by taking the life of Mrs. Anderson and the child, inflict a terrible revenge on George B. English, Mrs. Anderson's uncle, against whom she had obtained a judgment of \$750 and who had, it is alleged, transferred his property to his wife.

She denied she had written to Mrs. J. W. Tremble after passages between Attorney Clyde E. Case and Deputy District Prosecutor Mrs. Campbell, released Miss Mitchell under a peace bond of \$100, stating he felt she had written the letter under excitement. He gave her the benefit of the doubt, but advised her to act differently in the future.

PROHIBITION CANDIDATES COMING TODAY.

HEADS OF NATIONAL TICKET TO SPEAK HERE.

Arrival of Visitors on Special Train will be Followed by an All-Day Celebration, Including Automobile Parade and Mass Meeting.

J. Frank Hanly, former Republican-Governor of Indiana, and now candidate on the Prohibition ticket for President, accompanied by Dr. J. A. Landrith, former Chautauqua speaker, and now nominee for Vice-President, on the same ticket, will arrive in Los Angeles this evening at 7:45 o'clock by special train.

Both men will address local Prohibitionists at a mass-meeting, which will be held in the Mason Opera-house at 5 o'clock tonight.

Prohibitionists of Los Angeles will celebrate the arrival of the candidates with a festival, which will open at 10 o'clock this morning and continue through the day. A mass meeting will be held at the First Church of the Nazarene, Sixth and Wall streets, at that hour, and at 1 o'clock an automobile parade through the downtown streets will follow.

At the meeting this evening other speakers will be Daniel Poling and Oliver W. Stewart. Music will be furnished by the Glendale Quartette and by a special soloist from the candidates' train. Free reserved seat tickets have been issued for the meeting, but no seats will be held after 7:45 o'clock.

The special train, which has stopped, on an average, at ten towns a day, while en route from Chicago, will halt today at the following cities at the time stated: Anaheim, 7:45 a.m.; Santa Ana, 8:35 a.m.; Corona, 9 a.m.; Riverside, 10:55 a.m.; Colton, 12:15 p.m.; San Bernardino, 12:55 p.m.; Redlands, 2:10 p.m.; Ontario, 4 p.m.; and Pomona at 5:15 p.m.

Accompanying Mr. Hanly and Dr. Landrith are Oliver W. Stewart, and Daniel A. Poling, the latter is acting president of the United Society of Christian Endeavor. There will be the usual quota of newspaper men, secretaries and assistants. The wives of the candidates will join their husbands here and accompany them upon the remainder of the tour.

AT HOLLENBECK PARK.

Added features will mark the programme at Hollenbeck Park next Sunday. At 1 o'clock there will be a concert with numbers contributed by Mary Vyryan, Alice Carrico and Miss Benedette Dor, late of the "Mills Flats." At 5:30 in the afternoon and 8:30 o'clock in the evening George Mathias, hanging from a pulley carried by two feet, will slide more than 1000 feet down a cable stretched over the lake. Mr. Mathias' Ragtime Orchestra will give a concert at the park this afternoon, with vocal selections introduced.

Soft and Silk Collars.  
\$1.00 to \$3.00

Fiber Shirts  
decidedly popular  
\$3.50 and \$4.00

Open Saturdays  
Till 9 P.M.

## The Public Service.

At the City Hall.  
WIDE APPLICATION ORDINANCE READY.

REGULATES ALL CARRIERS EXCEPT RAILROADS AND CARS.

Transfers Rule from Police Commission to Board of Public Utilities and Affects Passenger Vehicles Plying for Hire—Council Holds Right of Review.

The new ordinance regulating all common carriers other than railroads and street cars will have the emergency clause attached to it in order that it may become effective October 1. City Attorney Stephens completed it yesterday. It transfers regulation from the Police Commission to the Board of Public Utilities.

The ordinance is wide in its application as it includes not only jitney buses, taxi cabs, interurban and sightseeing busses, but all vehicles plying for hire. It means that transfer men and express men will come under the supervision of the Board of Public Utilities as well as drivers of jitney busses and other conveyances. The board will draw up the rules and regulations, and the City Council is given the right of review.

The ordinance will be reported to the Council next Monday morning for adoption. All passenger-carrying vehicles will be under bond.

ASK CITY'S HELP.  
FLOOD PROTECTION.

Property owners living on Encino avenue in the San Fernando Valley will appeal to the Council today for help in paying the expense of striving to prevent the shifting of the channel of the Tejuca wash, which last winter carried away about a quarter of a mile of the thoroughfare.

They believe that two barbed wire fences, built close together and filled with brush, will stop the further encroachment of the water and they will ask the Council to appropriate \$300 as the city's share of the cost.

Contracts are Let.

Contracts for sewer construction and street improvement work, aggregating \$11,176.16, were awarded by the Board of Public Works yesterday. The largest contract was for the paving and otherwise improving of De Longpre avenue from Gover street to Vine street, the cost of which will be \$717,116. Sewer construction in the Orange drive district will cost \$1195, in Commonwealth avenue and Santa Monica boulevard district \$1554, and in Alexander avenue, between Fountain avenue and Sunset boulevard, \$559.

City Hall Notes.

The City Council yesterday indicated the City Attorney to obtain from the Harry H. Culver Company deeds for Media Park, which the city has decided to accept.

A new slaughterhouse district is to be created in the San Fernando Valley in order to allow the continuance in operation of an establishment which was brought within the city limits when the valley was annexed. The ordinance will be amended so that slaughterhouses can be established in annexed territory by consent of the Council.

At the Courthouse.

APPRAISAL REPORT OF BAKER ESTATE.

REFEREES MAKE APPOINTMENT FOR MANY HEIRS.

In Confirmation Judge Shenk Commands Their Work Highly and Will Receive Over Twenty Thousand Dollars—Final Decree Set for Saturday Week.

The report of W. H. Holabird, T. N. Gamble and W. W. Mims, the referees in partition in the suit of Fuller V. Couta, came up for confirmation before Judge Shenk yesterday morning, and an order was made confirming it.

George Fuller, attorney for plaintiff, in presenting the report and moving its confirmation, said among other things that "the referees had made a scientific appraisal of the property, so adjusting the values, one piece relatively with another, that it was possible to make a just allocation among the heirs and other owners and practically impossible to make an unjust allotment." He remarked that "it should be said of the work of the referees, as set forth fully and with great particularity in their report, that it was a splendid performance of an onerous and important task."

Judge Shenk in confirming the report, commended the work of the referees highly and said the report showed great care and diligence on their part.

There was a full attendance of the numerous attorneys representing the forty-eight owners in the estate, but no objection was interposed to any portion of the report.

It was a matter of general comment about the Courthouse that this case made a record in the matter of confirmation of referees' reports in partition. No one could remember another instance where there was not some objection on the part of some one to the referees' report; and it was thought to be a tribute to the ability and impartiality of the referees.

The matter of the referees' fees and attorneys' fees and other costs was reserved for determination by the court until the time of the making of the final decree, set for Saturday, the 29th inst. On the basis of one-half of 1 per cent. of the appraised valuation the referees will receive \$25,175 for their services.

Incorporation.

The Newport Glass Company, incorporated in California, and J. W. Cyr, C. W. Irwin, E. F. Foster and W. J. Adams, capital stock \$60,000, subscribed \$50; The Karma Company, incorporated in California, and J. W. Cyr, C. W. Irwin, E. F. Foster and W. J. Adams, capital stock \$60,000, subscribed \$50; The Karma Company, incorporated in California, and J. W. Cyr, C. W. Irwin, E. F. Foster and W. J. Adams, capital stock \$60,000, subscribed \$50; The Karma Company, incorporated in California, and J. W. Cyr, C. W. Irwin, E. F. Foster and W. J. Adams, capital stock \$60,000, subscribed \$50.

Warning.

"WAKE UP, AMERICA, CHINA SLIPPING."

SHANGHAI BANKER SAYS "OPEN DOOR" POLICY FADING.

Japan Rapidly Gaining Control by Forceful Methods—Only Chance for Uncle Sam is Large Loan to Put Celestial Kingdom on Feet Financially.

In the opinion of F. H. Vines of Shanghai, China, who is at the Clark, nothing but a large loan by American bankers can preserve the "open door" policy in China. Mr. Vines has lived there many years and is the district manager of the British-American Tobacco Company.

"Japan is getting in a lot of good work while the eyes of the world are on affairs other than China's welfare," he said last night. "The Russo-Jap alliance, of which but little is known, has to do principally with Chinese trade and bodes no good for American exporters."

"Every demand Japan makes is backed up with an army corps and a formidable fleet, and China meets that demand. The only thing that will keep Japan from acquiring absolute control in China is the financial backing of China by other nations."

"Recently the two biggest banks in the republic, the Bank of China and the Bank of Communications, repudiated all their bond issues and if Chinese bankers are forced to turn to Japanese capitalists for their money, Japan will simply take over the customhouses and it will be all off with the 'open door' policy. Japanese control, as evidenced particularly in the past year in the provinces thickly populated with Japanese subjects, is a menace to all business but that of Japan."

Mr. Vines says the United States is practically a by word in the Orient and that the American, although controlled by Americans, is incorporated as an English concern and that when they want anything they go to the British Minister for it. Accompanied by his wife, Mr. Vines has been touring the Pacific Coast on a few weeks' vacation. He expects to go to San Francisco in a few days and will embark for the Orient about October 1.

Avoid the Rush.

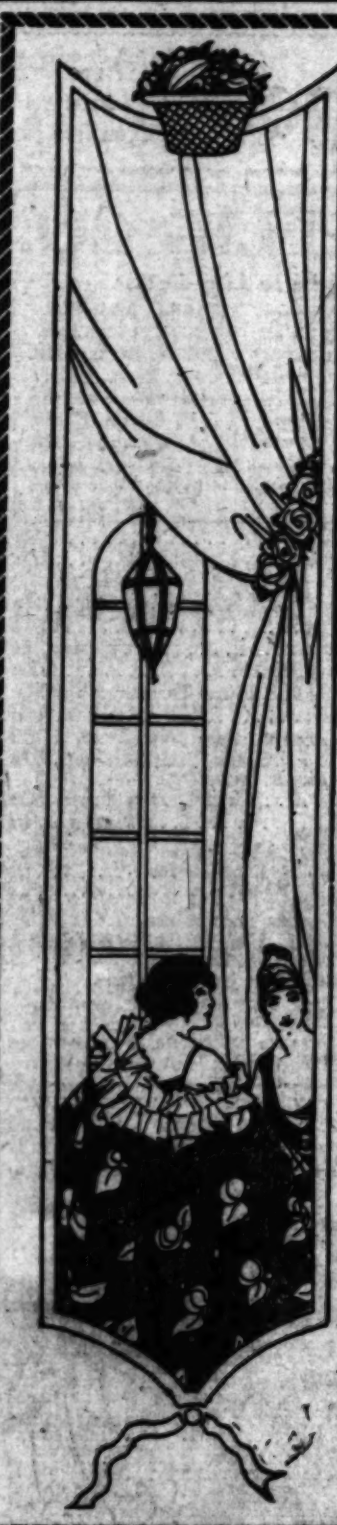

On Saturday, make practice of planning your shopping trip to the Times Friday, day or night. For the service will be under your hand or office. Make \$200—Save \$1000.
